
GROUSER **AG PRO** *ADJUSTABLE*

Our line-up of adjustable width blades now includes the 3-5 along with the 12-20. Grouser has developed the 3-5 adjustable width blade for your 325-700 HP tractor. With the ability to adjust the width of the blade on the fly from 9.5'-17.5'. You will be narrower than the width of large single tires and track machines and still be able to push a full load at 17.5' wide. The new adjustable blades, along with the AG PRO plus undercarriage and lift system will raise the blade up and out of the way, meeting your customers requirements to spread and pack silage efficiently.

Unmatched Lift Height, Ground Clearance, Approach Angle and Versatility

NEW FEATURES !!

-Adjustable Width from 9.5'-17.5' or 12'-20'

-Increased Lift Height

-Increased In-Ground Depth

-Unmatched Ground Clearance
