

Claas Xerion 4000/5000

GROUSER

AG PRO_{ss}

Grouser has developed the new AG PRO_{ss} vertical lift line of dozers to fit the Claas Xerion tractors. Designed to bring the blade closer to the tractor while maintaining the original high approach angle and high ground clearance. The AG PRO_{ss} has the features that are important to the custom packer. The undercarriage and lift system are up and out of the way, meeting your customers requirements to spread and pack silage efficiently

Unmatched Lift Height, Ground Clearance, Approach Angle and Versatility

FEATURES

-24" Closer to the Tractor

-4" X 20" Vertical Lift Cylinders

-22° Approach Angle / 40% Grade

-20" Ground Clearance
