

GROUSER

AG240

Get lifting heights that OEM hitch configurations simply cannot match with our AG Series blade systems. These systems are ideal for 150-500 horsepower JD 8R row crop tractors giving you exceptional versatility and ease of use in the yard and field. Lift system will raise the blade up and out of the way, meeting your customers requirements to spread and pack silage efficiently.

Unmatched Lift Height, Ground Clearance and Versatility

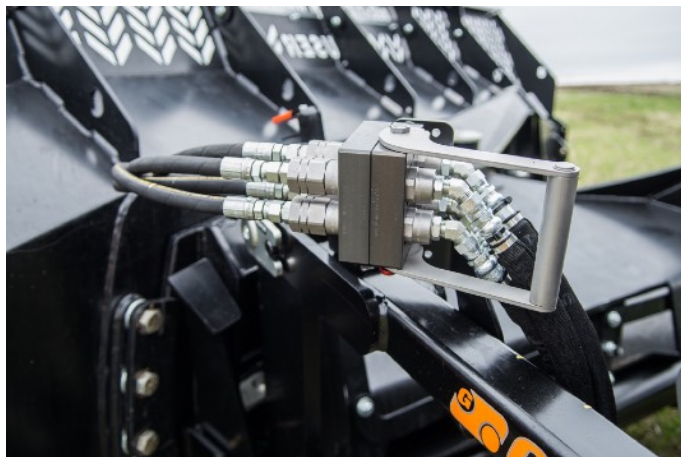

FEATURES !!

- Widths available from 10' - 16'
- Increased Ground Clearance
- Single lever Quick Attach
- Parallel Lift System
- Easy Access hydraulic Couplers
- Adjustable Skid Shoe

Single Lever quick-attach system for fast and easy attachment and detachment
